

# FERTILITY PACK<sup>®</sup> SOW

SWINE

## SUPPORT IN LATE GESTATION AND LACTATION

- ⊕ More vigorous weaned piglets per sow per year
- ⊕ More intense signs of heat and higher conception rates
- ⊕ Improves health and vitality, thus prolonging sow longevity

# FERTILITY PACK® SOW

SWINE

## SUPPORT IN LATE GESTATION AND LACTATION

### Mode of action

**Fertility Pack® Sow** prevents trace element deficiencies. High performing sows need an additional supply of high bioavailable trace elements.

**Fertility Pack® Sow** is a complementary feeding stuff based on highly bioavailable copper, zinc, iron, and manganese chelates of glycine hydrates (E.C.O.Trace®), providing an optimal supply of trace elements.

**Fertility Pack® Sow** is the sound basis that ensures maximum:

- + Fertility
- + Milk production
- + Health
- + Optimum body condition

**Fertility Pack® Sow** is carefully balanced to support the sow's immune system. Piglets also benefit from a better neonatal iron supply, improved vitality and higher growth rates. Only healthy and vigorous suckling piglets with high weaning weights are able to tap their full genetic growth potential in the fattening phase.

**Fertility Pack® Sow** takes your animals safety to high performance and consequently to your profit.

### Additives

Iron (E.C.O.Trace®)	Copper (E.C.O.Trace®)
Manganese (E.C.O.Trace®)	Zinc (E.C.O.Trace®)
Selenium (B.I.O.Key®)	Vitamin E
Vitamin B <sub>1</sub>	Vitamin B <sub>2</sub>
Vitamin B <sub>6</sub>	Vitamin B <sub>12</sub>
Vitamin C	Nicotinic acid
Pantothenic acid	

### Recommended dosage

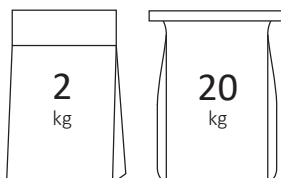

2 kg per ton finished feed or 10 g per sow per day.

### Application

7 days before farrowing until weaning.

### Package size

2 kg bag, 20 kg bag
